MANUFACTURERS OF WATER TANKS & OTHER ROTO MOULDING PRODUCTS & EPDM PROFILES EXTRUSION

IDROPLAST, was established in 2009, to manufacture water storage tanks in 20 various shapes and sizes starting from 300 up to 5000 litres. We produce a range of products such as : Rectangular tanks, Agricultural and Industrial tanks, Septic tanks, Potable water tanks, Underground water tanks, Rain water harvesting tanks , Bowser type water tank, round water tanks, corrugated roofing sheets, Traffic barriers (New Jersey type), traffic cones, etc., Idroplast polyethylene water storage tanks are manufactured at a rotational molding process. All tanks are completed with tank connector.

The company has expanded its operations in manufacturing EPDM-rubber profiles which its use is to seal the glass to the aluminium/pvc windows and doors.

Recently the company diversified also into the manufacturing of HDPE monofilament nets. All products are manufactured from top quality monofilament , 3.5% UV treated. The nets are produced by the superior Sulzer machines and cover mainly the Agricultural and Industrial sectors. Within the agricultural range we manufacture the grape nets, lawn growing nets, insect nets for green houses , tomato /strawberry growing etc., shading nets, anti-hail/frost nets, olive collection nets etc. Within the industrial range we manufacture the scaffolding netting, shading nets , etc.

Idroplast Manufacturing Ltd., is sister company to Italcris Trading Ltd., and Italcris Malta Ltd., which have been in business as general importers, wholesalers and distributors of building material and hardware products such as water pumps, generators, bathroom sanitary ware and accessories, and many other products for the past decades with successful trading.

As we had expanded our product range, we moved into a new premises. Being a small and medium sized firm we are very flexible in meeting customers' needs. Infact both companies have traded with various top customers with a good client base. The market of Idroplast is both for local and international. We export a number of products to Europe, North Africa and other countries.
